

Dear Sir/Madam,

I am writing to express my interest in the Backend Developer position at Obmedia. As an experienced Software Engineer, I have developed a wide range of expertise in both backend and frontend development using a variety of Python frameworks, including Django, Flask, and FastAPI. I am also proficient in React, HTML, CSS, and Bootstrap for front-end development, as well as mobile development with the front end. Additionally, I have experience with JavaScript for both frontend and backend development and possess skills in Artificial Intelligence, Data Science, and Natural Language Processing (NLP).

My passion for collaborating with others to deliver top-notch software solutions has enabled me to thrive in team settings, and I am always ready to contribute my expertise to challenging projects. I have extensive experience working remotely and am comfortable collaborating with team members worldwide. Moreover, I am dedicated to continuous learning and growth in my field, and I am excited to work on projects that push the boundaries of what's possible in software development.

Throughout my career, I have had the privilege of working on various complex projects that have enabled me to develop my skills further. From developing innovative solutions to automating manual processes, I have consistently delivered results that exceed expectations.

As a Python Developer at Obmedia, I am confident that I will be able to contribute significantly to your projects, leveraging my skills and experience to deliver top-notch solutions. I welcome the opportunity to discuss potential opportunities or projects and would be delighted to connect with other professionals in the field.

Thank you for considering my application. I look forward to hearing from you.

Sincerely,

Oscar Byiringiro
