Dear Sir/madam

This letter is to express my interest in your posting for an experiencing and addicted software developer I am pursuing in computer engineering, I am python developer with highly skilled in Django and Django rest framework and I can try frontend too with able to mix ajax, jQuery and Java script with Django

I enjoy being challenged and engaging with projects that require me too much complex thinking because I am great at knowing the right algorithm, as I continuing to learn new languages and development techniques are important to me and success of your organization

Your listed requirements closely match my background and skills. A few I would like to highlight that would enable me to contribute to your bottom line are:

- Template customization
- Developing efficiency projects in Django, rest framework
- Developing features like celery, Redis and channels
- Use circleci for interact with developers in same project
- Able to mix js, jQuery and ajax within Django
- API documentations and testing

I've attached a copy of my resume that details some of my projects and experience in backend development even if some are privacy but I can discuss some technology I used via meeting. I can be reached anytime via my cell phone, +250786405263 or via email at ntwarioscar12@gmail.com

Thank you for your time and consideration. I look forward to speaking with you about this opportunity

Sincerely

Oscar Byiringiro
