Oscar Byiringiro
Software developer

I am passionate coder, I love to program and I have do so far for 5000 hours over the past years I'm great at knowing the right algorithm for a problem because I read computer science literature constantly I love working with people to do things bigger than I could accomplish alone. I am highly skilled in python, Django rest framework and Django I worked on many project related with Django and Computer vision and I am still learning and willing to learn new technology much as possible

- This project works as security camera by using phone camera or personal computer and detect the person in area then start recording

SKILLS

Django Framework | Python
Django rest framework | Template customization
API integration | web deployment
Computer vision | html CSS | C++ C
Git and CircleCi | Java | APIs | Flutter
JavaScript

ACHIEVEMENTS

Certificate in Software developer From Solvit (03/2022 - 05/2022)
Mostly content was understanding technique in software development in backend (Django and DRF) and be able to cooperate with Frontend like react

Certificate in Backend in Django in tech upskill program (09/2021 - 12/2021)
content in training was python basics, Django framework, PostgreSQL, template customization, API integration, Web deployment

Certificate in Backend in Django in Klab Startup Academy (10/2021 - 01/2022)
content in training was python basics, Django framework, PostgreSQL, template customization, API integration, Web deployment

Certificate in Huawei seeds for the future program (11/2020 - 12/2020)
content of latest technology 5G, cloud computing, AI

Certificate in Introduction to Data science in python in University of Michigan (12/2020 - 12/021)
online course on coursera platform

Certificate in Data science from Carnegie Melon University Africa (01/2021 - 03/2021)
The ripple project certificate in Data science

Certificate in Cybersecurity from Carnegie Melon University Africa (03/2021 - 10/2021)
the ripple project certificate in cybersecurity in intermediate level

LANGUAGES

English   kinyarwanda
Full Professional Proficiency   *Full Professional Proficiency*
